Round forms of varying proportion make the Optic Wall Chandelier soothing and playful.

Hot glass is added to the pieces when they are blown, creating lenses in the glass that shine when lit, provide dynamic optic effects, and exemplify the hand-blown nature of the glass.

Unique custom wall-mounted armature allows the glass to float in space.

Custom designed for its environment.
Each one is unique and signed by the artist.
Various colors, sizes, and finishes.
Hand-made in New York City.
Eco-Friendly.
